CAMPANIA
INTERNATIONAL

POLYETHYLENE COLLECTION

Campania offers lightweight rotationally molded polyethylene planters that are designed for maximum durability. Our material is resistant to damage from extreme temperatures and U.V resistant. They will not become brittle and crack over time; nor will their color fade.

Our polyethylene planters convincingly replicate the look of traditional materials while providing exceptional durability. Polyethylene is great for rooftop terraces, high traffic areas, health care facilities, pool decks, and more.

Campania offers four exclusive color choices: Antique Terra Cotta (AT), Grigio (GR), Weathered Stone (WS), and Black.

CAMPANIA POLYETHYLENE PLANTERS

- Lightweight and Durable
- Appropriate for indoor and outdoor applications

- U.V. Resistant
- All recommended commercial products and CAD files can be viewed at www.campaniainternational.com/projects
- Full line can be viewed online at www.campaniainternational.com

POLYETHYLENE GENERAL CARE

Polyethylene is durable and may be left outside in winter. Ensure proper drainage by placing a layer of coarse gravel or other appropriate drainage material in the bottom of the container and making sure the drainage holes are not blocked.

Specifications

* Drain Holes - Standard

Item #	Item Description	Outside Dimensions L x W or (D) X H Interior Dimensions Top L x W or (D) Bottom L x W or (D) Height	Outside Base Dimensions L x W or (D)	Weight (lbs)
