## Fiber Cement Collection

Campania's Fiber Cement planters are made using cement, chopped fibers and/or a fiberglass mesh. The fiberglass mesh replaces the stone aggregate traditionally used in cast stone creating a planter that is about 25% lighter with a similar aesthetic. The clean and simple lines of Campania's Fiber Cement planters provide a distinctly modern sensibility and appeal. Fiber Cement planters are appropriate for indoor or outdoor use in medium-low traffic areas, patios, terraces and gardens. Fiber Cement is lighter than traditional cast stone and replicates the look and feel of poured concrete.

Available colors are Playa Blanca, Playa Noche and Playa.

*Please note that actual colors may vary slightly from those depicted here.*

Material	Item Description	Item #	Available Colors	Outside Dimensions	Planting Dimensions	Base Dimensions	Approx. Weight
Fiber Cement	Playa Tapered Rectangle	93-163-19608	(196) Playa				8 lbs/set
Fiber Cement	Large Playa Tapered Rectangle	93-163-19600	(196) Playa	12"L x 6"W x 6.25"H	10.25"L x 5"W x 5.5"H	8"L x 4"W	6 lbs
Fiber Cement	Small Playa Tapered Rectangle	93-163-19601	(196) Playa	8.25"L x 4"W x 4.5"H	7"L x 2.75"W x 3.75"H	5.5"L x 2"W	2 lbs

**Note:** Planters have drainage holes with plugs.

# Playa Tapered Rectangle

**Materials:** cement, chopped fibers and/or a fiberglass mesh

**Care & Maintenance/Outdoor Planting Instructions:** Our fiber cement planters are equipped with pre-installed drainage holes. The drain holes must be kept clear to maintain the longevity of your planter, especially in climates that undergo freeze thaw cycles in the winter. We recommend: Covering the drain holes with a mesh screen or equivalent to keep debris from clogging the openings; Filling the bottom of the planter with non-porous drainage material; Filling the remainder of the planter with a well-draining soil mix that will not retain water; and lastly, covering the soil with decorative mulch or pine bark to the top rim of the planter to discourage water from pooling on the surface.

**Cleaning Instructions:** Campania Fiber Cement planters can be cleaned with either water or Windex® with Ammonia-D. Spray down the surface of the planter where it is dirty and use a lint-free cloth or sponge to wipe the surface. Note that it may take several cycles of wiping and drying before the planter is completely clean. This is normal and to be expected with the texture in the fiber cement. Do not pressure wash, use alcohol based cleaners, apply corrosive cleaners or clean with anything abrasive.

**Warranty:** Campania International, Inc. provides a limited 3 year warranty for material and manufacturing defects only assuming proper product care and maintenance as described in Campania's product specifications. Please refer to Campania's care instructions for proper care and maintenance. In addition to the failure to properly care for and maintain the product, this limited warranty does not apply to any defects which occur in the color or surface of the product which are the result of natural weathering, exposure to the elements or improper winterization. Campania International, Inc. will not be held liable for any incidental or consequential damages, including but not limited to damage to any plants which may have been planted in the product.
