**Quakertown, PA March 1, 2006** – For the third time in the past four years, Campania International was selected to receive the coveted ECGC Award of Excellence. They were also recognized as the top decorative supplier by this group of ten top tier independent garden centers in 2002 and 2003.

According to Ellen May, executive director of ECGC Distributors, LTD, Campania's commitment to customer service and quality craftsmanship made the company the "clear winner" for 2005.

The award was presented by ECGC at the eighth annual awards reception held in January, during the AmericasMart Gift & Home Show in Atlanta. Eddie Anderson, CEO of McDonald Garden Center presented the award to Campania's CEO Glenn Appel.

According to Anderson, Campania is one of the top garden accents manufacturers in the country. "They are dedicated to offering high quality products with beautiful designs and outstanding customer service," he added.

Nursery buyers from each of the ECGC organizations agreed. Campania was selected from some 90 candidates judged on product quality, customer service and partnership marketing.

"ECGC members are among the most successful garden centers in the country and are the benchmark for the industry," says Peter C. Cilio, vice president of product development for Campania International. "This award is a tribute to the team work of our entire staff, from our designers to our sales support staff."
